DETAILED ACTION

This is in response to amendment filed on 4/18/07 in which claims 1-4 and 6-30 are pending. The applicant's amendments and arguments have been fully considered therefore this case is in condition for allowance. In addition the pending claims have been renumbered as 1-24, 26, 25 and 27-29, respectively.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gregory J. Gorrie on 6/6/07.

The application has been amended as follows: in last line of claims 1, 14, 25 and 28 "wherein each sub-channel comprises a group of adjacent OFDM sub-carriers" has been deleted and replaced with ---wherein each inactive sub-channel comprises a group of adjacent inactive OFDM sub-carriers---, respectively.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the prior arts of record fail to anticipate or render obvious the following recited features: refraining from performing data-symbol processing on the inactive of the sub channels in response to the channelization vector, wherein each inactive sub-channel comprises a group of adjacent inactive OFDM sub-carriers as recited in claims 1, 14, 25 and 28 and

in page applicant's response. Wherein the short-training symbol processing circuitry comprises: a plurality of matched filters, each matched filter having a coefficient spectrum matched to a corresponding one of the sub-channels; non-coherent summators to sum output from a corresponding one of the matched filters; threshold detectors to determine when the summed output from a corresponding one of the summators exceeds a predetermined threshold; and a multiplexer to combine outputs from the threshold detectors to generate the channelization vector as recited in claim 26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
